

## Gainsborough's science principles and vision

### Our vision

Science at Gainsborough will develop every child's knowledge of the world and everything in it. It will allow them to develop an enquiring mind, encouraging them to solve problems and to look at the world in different ways.

Through the teaching of science we are preparing them for the modern world looking at the changes of technology, sustainability and appreciation for the planet.

**To achieve this science teaching at Gainsborough Primary and Nursery School involves:**

**Having the opportunity to ask questions and answer them.**

**Enquiry based learning.**

**ALL learners and staff are excited, engaged and enthused by their learning.**

**Collaborative Learning.**

**Deepening previous learning**
